

Electronics & Intrinsic Safety Design Services

Why Choose us? Experienced team of 5-people working in niche areas and having more than 20 years of experience in new product design, testing & consulting. Providing customized solutions at any project stage to meet the business needs. Have clients in US and India Region. Ex Comp certified engineers.		
Areas we work in Electronics	Areas we work in Software & Mechanical	Areas we work in Intrinsic Safety
• Validate new concepts by prototyping. • Design Consulting for electronics. • Design implementation: Schematic & PCB-Layout. • Functional and Integration Testing. • Support in Compliance Testing. • CE, UL, FDA • Obsolescence management & Porting. • Retrofit Old Boards.	• Software Design for Embedded Applications. • Board Bring-Up and Test Software • Design Webserver & Web-Application • Design customized App for Android & IoT • Software maintenance. • Test Fixture design & development. • Enclosure Design.	• Consulting / Workshop on Intrinsic Safety. • Design consultancy for Zone-0/1 products. • Intrinsic Safe Design Review. • Support in Protection Ckts & Layouts. • Prepare Technical File as per OD17. • Intrinsic Safety Certification guidance. • Encapsulation & Conformal Coating
Project Areas	Deliverables in Electronics Project	Deliverables in IS Project
• IoT & Wireless Connectivity • Industrial Electronics • Medical Electronics • Switchgear, Remote Terminal Units • Process Automation • Hazardous Locations	• Proof of Concept (PoC) • Design Consultancy • Schematics, Layouts & BoM • Dxf, Source Code • Test Reports • Prototype's	• Design Consultancy • Technical File • Schematics, Layouts & BoM • Initial Prototype
Hardware Tools:	Software Tools	Intrinsic Safe Standards:
• Microcontroller/Microprocessor. • EDA Tools: Altium, OrCAD. • Simulation, IEC 610xx-Standards	• C, Python Programming • Webserver, Mobile App Connectivity • Power BI.	• IEC 60079-0 • IEC 60079-1 • IEC 60079-11
Process:		Contact Information
• Requirement Discussion • NDA Sign • Kick-Off Meeting • Schedule & Deliverables Discussion • Execute and Deliver the Project • Feedback & Support		Email: Exidesignservices@gmail.com
